4-1 Journal: Career Planning and Artifact Update

Part 1:

1. Have you changed your career plans? If so, what prompted this change? If not, why have you remained with your original plan?
 - a. My career plans have not really changed much since leaving the military. I transitioned from being an Infantryman in the Army to working as a TAM for UiPath. I had also planned to finish my CS degree and went back to school as soon as I got out. Currently I am a Consultant at Red Hat and still plan to continue on the current path.
2. How has your thinking about your career evolved?
 - a. Initially, I thought that I needed to move quickly and learn a lot of new things at once. Now, I know that I can be more patient and that I know a lot more than I once thought I did.
3. Have you completed any research about your choice of career? How has this impacted your thinking? Have you thought about seeking an advanced degree or certification after earning your undergraduate degree?
 - a. I am already working in my career of choice, but I do eventually plan to pursue advanced degrees. Given the nature of the tech industry, I know it will be important to pursue continuous education to stay relevant.
4. Which course outcomes have you achieved so far, and which ones remain?
 - a. I have achieved Course Outcomes 4, 5, 3 so far by completing enhancements for Category 1 and Category 2. Category 2's enhancements aligned with Course Outcome 3.

Part 2:

Status Checkpoints for All Categories

Checkpoint	Software Design and Engineering	Algorithms and Data Structures	Databases
Name of Artifact Used	Appointment (CS-320)	Course Catalog (CS-300)	Animal Search DB (CS-340)

Status of Initial Enhancement	Complete	Complete	Pending
Submission Status	Submitted	Submitted	Pending
Status of Final Enhancement	Complete	Complete	Pending
Uploaded to ePortfolio	Pending	Pending	Pending
Status of Finalized ePortfolio	Pending	Pending	Pending
